About Us

Established in 2020 in New Delhi, B-ABLE Foundation is a Section 8 not-for-profit organization committed to promoting sustainable livelihoods for marginalized youth and women across India. As an affiliate of Basix Academy for Building Lifelong Employability Ltd. (B-ABLE Ltd.) and a proud member of the BASIX Social Enterprise Group, the foundation delivers inclusive, impactful, and scalable skill development programs.

Our mission is to nurture local entrepreneurship and foster prosperity by providing vocational training, capacity building, knowledge transfer, and micro-entrepreneurship support. At B-ABLE Foundation, livelihood is not just about employment—it is about empowerment, dignity, and opportunity.

Operating across 21 states, the Foundation has empowered over 3.3 lakh youth through its interventions, with 45% of our beneficiaries being young women and girls. We are recognized with 12A, 80G, and CSR-1 certifications, enabling us to partner with leading organizations such as UNICEF, Dr. Lal Path Labs, Jubilant and Gainwell (CAT).

Through these strategic collaborations, we address critical gaps between industry demands and workforce readiness, offering pathways for both employment and entrepreneurship. Our work spans diverse sectors, including healthcare, agriculture, construction, IT-ITeS and retail.

The past year marked a significant phase of growth and innovation for B-ABLE Foundation. Anchored in our commitment to inclusive development, we expanded our geographical outreach, deepened institutional partnerships, and recorded a notable increase in individuals trained and supported.

Our approach became more holistic, integrating health, education, and financial literacy into our livelihood initiatives to enhance community well-being and long-term sustainability. Powered by practical training modules, industry tie-ups, and community-driven frameworks, our programs continue to bridge gaps in education, employability, and resilience.

Driven by the belief that a skilled nation is a prosperous nation, B-ABLE Foundation remains steadfast in its vision—transforming lives and creating opportunities, one individual at a time

COO'S MESSAGE

It gives me immense pleasure to share this report of the year. This Annual Report has captured the key updates on our ongoing programs, progress made, and the dedicated efforts of our team across regions.

It is noticeable that the majority of youth are lacking the necessary skills required by the industry. Sometimes beginners are lacking in very basic skills like entering formulas in spreadsheets, handling files and documents, or sending digital communications, which limits their employability scope. As a part of the skilling sector, B-ABLE and its Foundation over the past 14 years have been working to minimise this gap and connecting youth with our multiple skilling programs, preferably to future skills like digital literacy program, financial literacy program, etc.

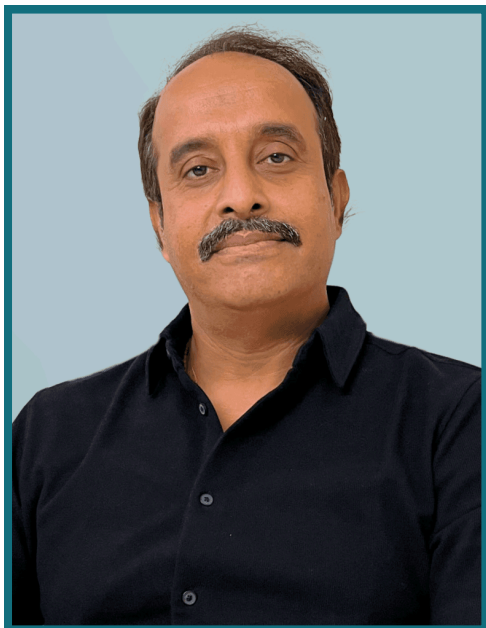

We appreciate the initiative of NSDC on Artificial Intelligence powered digital job hub wherein open positions will automatically match with skilled beneficiaries open for job in bulk, serving as a geo-map based employment platform for upcoming youths. AI technology will create an abundance of opportunities for the youth. NSDC is creating 100 future skills job roles to support youth. We are also looking forward to being a part of such an initiative and contributing to the skilling sector. B-ABLE Foundation is constantly working to digitally upskill the youth through our initiatives, and we have successfully trained over 3 lakh beneficiaries .

We are continually working to empower young women through our various skill-building and employability programs. Recently, we have incubated and initiated the #SakshamNaariKaSafar initiative through which we are doing a wonderful community connect with young women beneficiaries by making them micro-entrepreneurs in their villages to secure their livelihood. The initiative of "Didi ki Dukaan" is successfully piloted in Gajraula (Amroha, UP), wherein we have empowered 25 young women entrepreneurs who are successfully running "Didi Ki Dukaan" and supporting their village community in accessing necessary products. Empowering women leads to healthy families and plays an important role in building a sustainable environment for their societies, paving the way for progress and prosperity. We've seen active participation from women in our initiatives, which has had a good impact ..

We are looking forward to implementing and incubating many more such future skills programs, which will connect beneficiaries with sustainable livelihoods through meaningful engagements.

Vedprakash Sharma
COO, B-ABLE Foundation

CEO'S MESSAGE

It gives me great pride to share this Annual Report, which reflects not only our achievements but also our vision for the future. At B-ABLE Foundation, we believe that skilling and livelihood opportunities have the power to transform lives, families, and communities.

One of the most promising developments in the skilling ecosystem is the NSDC's Artificial Intelligence-powered Digital Job Hub. This innovative platform will automatically match skilled youth with job opportunities across geographies, making employment more accessible and efficient. With NSDC's vision of creating 100 future skills job roles, the future holds immense potential for India's youth. We are inspired by this initiative and look forward to contributing actively to such transformative efforts.

At B-ABLE Foundation, our mission is to prepare youth for the world of work by bridging the persistent skill gap. To date, we have digitally upskilled and trained over 3 lakh beneficiaries through programs such as digital literacy, financial literacy, and employability training. These initiatives are equipping young people with the competencies required to thrive in today's evolving workplace.

A key priority for us is also women's empowerment. This year, we launched #SakshamNaariKaSafar, aimed at enabling young women to become micro-entrepreneurs within their villages. Our pilot initiative, "Didi Ki Dukaan" in Gajraula (Amroha, UP), has already empowered 25 women entrepreneurs to run successful community shops, ensuring access to essential products for their villages. This model highlights how empowering women creates sustainable livelihoods and stronger communities.

Looking ahead, our focus remains on future skills, innovation, and inclusive growth. With the support of our partners, we will continue to design impactful programs that enable sustainable livelihoods and empower communities for long-term prosperity.

Vishal Singh Amrawat
CEO, B-ABLE Foundation

INTERVENTIONS

Phlebotomist Skill Building Program

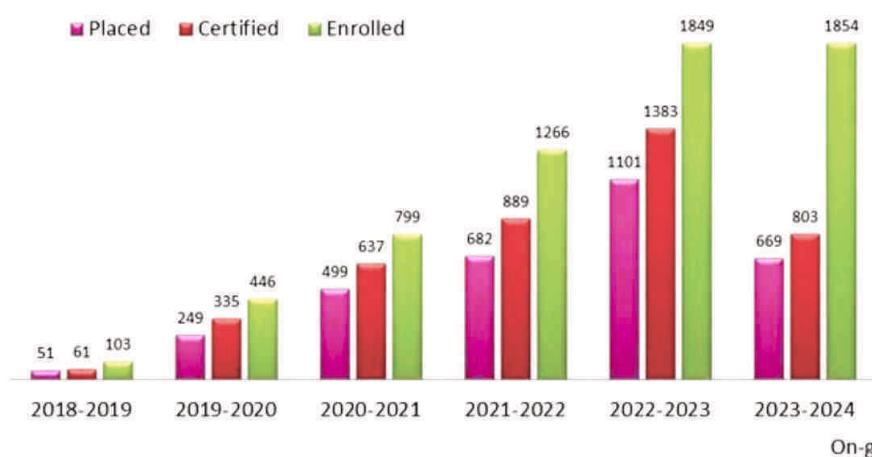

The Phlebotomist Skill Building Program, a **flagship initiative of the B-ABLE Foundation in partnership with the Dr. Lal PathLabs Foundation**, is a nationwide skill development program designed to bridge the gap between the demand for healthcare services and the availability of trained phlebotomy professionals.

This program aims to train and place **12th-grade youth (age groups 18-35) with a science background**. This aims to support the healthcare system in India by skilling marginalized youth as phlebotomists to collect and handle blood samples and provide them with a sustainable livelihood by helping them get duly placed in diagnostic centers, blood banks, hospitals, laboratories, and other healthcare setups

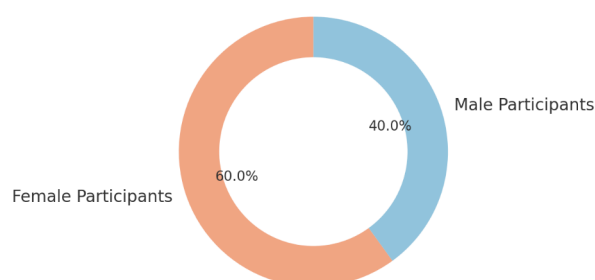

We have been able to create 4700+ phlebotomists, out of which **60% are females**, who have been encouraged to be a part of this program. These phlebotomists are creating an economic impact of 40+ crores annually for their families and are serving over 50 lakh patients in the economy. Today, they are leading a dignified life with sustainable jobs in the healthcare sector, hence embarking on social upliftment. In FY'23-24, we skilled 1650 phlebotomists and placed 1386 candidates successfully

Yearly milestones of the Phlebotomist Training Program

Gender Participation in Phlebotomist Program

Passport to Earning Program (P2E)

The Passport to Earning (P2E) program, a collaborative YuWaah UNICEF initiative has been a key initiative of our efforts to equip youth with essential digital skills across India. Focused on empowering individuals aged 14 to 29, Our coordinators have actively enrolled the students under this program.

Digital literacy is not just a skill; it's a necessity in today's times. It is increasingly influencing every area of our day-to-day life. Through the Passport to Earning Program of YuWaah UNICEF, we are implementing this skill covering 1284 schools/skill centres across the country. We up-skilled over 3 lakh in digital productivity and financial literacy in FY'23-24

Passport to Earning P2E - Dashboard Summary

Over 3 lakh youth upskilled	About 50% female participation
102+ districts covered	2000+ schools/ skill centres covered
Program implemented in 21 States	

Highlights:

- Skilled 3.10 lakh youth in FY'23-24
- Focus on digital & financial literacy
- Reaching out to skill centres, schools in remote areas
- Accessing large network of women SHGs in multiple states.
- Successfully implementing P2E program under Samagra Shiksha Abhiyan in UP

CATTLE FEED ENTREPRENEURSHIP DEVELOPMENT PROGRAM

The B-ABLE Foundation, in collaboration with Jubilant, has launched an innovative Cattle Feed Entrepreneurship Model aimed at improving dairy farming practices across rural communities. This initiative focuses on delivering high-quality feed and nutrition to dairy farmers, thereby enhancing animal health and boosting milk production.

KEY OBJECTIVES

- Improve animal health and increase milk productivity through quality feed and nutrition.
- Promote Cattle Feed Entrepreneurs (Kisan Sathis) by providing skill-building and continuous handholding support.
- Engage rural youth as knowledge disseminators, equipping them to educate farmers on breed improvement and animal health.

IMPACT & OUTREACH

- Reached 400 villages, mobilizing over 18,750 dairy farmers.
- Developed 52 Cattle Feed Entrepreneurs who are successfully operating Kisan Samridhi Centres.
- These centers serve as hubs for distributing quality feed and animal nutrition.
- They also function as awareness platforms, promoting best practices in dairy farming, animal healthcare, and breed improvement.

To strengthen farmer capacity, a workshop was organized on Farmers' Day, with participation from over 300 enthusiastic farmers. Experts from Kisan Vigyan Kendras (KVKs), private sector partners, and teams from Jubilant and the B-ABLE Foundation shared valuable insights on seed technologies, dairy innovations, crop diversification, maize production, remote sensing in agriculture, sugarcane crop challenges, and irrigation practices.

Backhoe Loader Operator & Technician Training Program

The Backhoe Loader Operator training program, in partnership with [Gainwell CAT](#), [Bhagwanti Memorial Foundation](#), and [ACRE](#), is designed to equip students with the skills necessary to operate and maintain backhoe loaders safely and efficiently. The program focuses on understanding machine components, mastering operational techniques, ensuring safe practices, and learning maintenance procedures.

Objective: Empowering youth with the skills on earthmoving equipment for lifelong employability and meaningful employment in the construction and mining industry, and filling the gap in the skilled workforce.

In addition to technical training, we provide life skills training as a part of the training curriculum, which is a value addition for the candidates, as it aligns with their personality development.

In this year a total of 63 candidates were skilling and placed in the sector. All these candidates are now successfully earning a meaningful livelihood and supporting their families.

We thank our partners for trusting us. We hope a positive impact of this initiative.

Building Master Technician Training

This is a CSR initiative of Everest in collaboration with the B-ABLE Foundation to mobilize and train local marginalized youth as rooftop installers, structural fabricators, and provide other services related to the construction industry. After training, we link them with meaningful placement opportunities at appropriate places or support them in setting up their microenterprise

The program aims to empower youth by equipping them with the necessary skills to become new-age construction technicians, enhancing their employability in the industry

By providing specialized training, it ensures that young individuals gain meaningful employment opportunities, contributing to their personal growth and financial stability. Additionally, the initiative supports the construction sector by developing a skilled workforce to meet the increasing demands of the industry, fostering economic development and sustainability. This program was implemented in Maharashtra, Gujarat, Haryana, UP, Odisha, Rajasthan, and West Bengal

HIGHLIGHTS

- Increase in technical, occupational, & safety knowledge .
- Increased average income after skilling
- Trained 251 candidates in FY '23-24
- Employment support to 177 candidate

Drone Technology

This is an initiative in collaboration with General Aeronautics and B-ABLE Foundation to train youth as drone pilots, enabling them to operate technology-driven (drone) services for efficient Agricultural sprays.

By contributing to the agriculture sector, the program focuses on advancing crop management techniques, ultimately leading to an increase in farmers' income.

These drone pilots are connecting with farmers, mapping their fields and spraying agricultural inputs, mainly pesticides, in the fields as per the recommendation of the agrochemical industry. The funding partner is inviting industry players to sponsor sprays for farmers' fields on a pilot basis. So far, results are encouraging, judicious, and uniform applications of pesticides are helping in better yields. The initiative primarily covers major crops such as paddy, wheat, and various vegetables

Skilling for Banking & Financial Sector

We have successfully certified all our 60 candidates who completed their Credit Processing Officer Course in partnership with CAF (Charities Aid Foundation) in Noida. The certification ceremony was attended by Mr. Anees Qureshi and Mohd Noorullah from B-ABLE Foundation, Mr. Praveen Malhotra and Mr. Sujeet Kumar from CAF, and Mr. Deepak Gusain and Ms. Rubi Chaudhary from Atulya Foundation

Quick Service Restaurant (QSR) Skilling Program

This is a new initiative with Jubilant for Quick Service Restaurant (QSR) training for youth. This is a 5-week program for youth who are at least 10th passed, and this type of restaurant focuses on providing customers with quick food service delivery. The program equips participants with the necessary skills for roles such as food delivery, waiting staff, cashier, manager, and receptionist. Some of the most popular QSR chains include Domino's, McDonald's, Burger King, KFC, Subway, and Taco Bell. These chains are known for their consistent food quality, convenient locations, easy delivery, and reasonable prices.

Objective: Training youth in Quick Service Restaurants to create livelihood opportunities for them and bridge the gap between the skilled workforce and the industry. 20 candidates have completed their training in Delhi, Haryana, and Assam. We have placed skilled candidates after the successful completion of the program.

Didi Ki Dukan

Didi Ki Dukaan is a transformative initiative by B-ABLE Foundation in partnership with Jubilant aimed at empowering rural women to become self-sustained entrepreneurs. It addresses the challenges these women face in accessing essential goods while fostering sustainable livelihoods. The initiative offers a week-long training program where Didis gain skills in business planning, financial management, customer relationships, and marketing.

Monthly meetings provide ongoing support, allowing Didis to share experiences, overcome challenges, and refine their skills through refresher training. This comprehensive model creates a robust network of women entrepreneurs driving both economic growth and community development.

Employability for Young Women in Dholpur

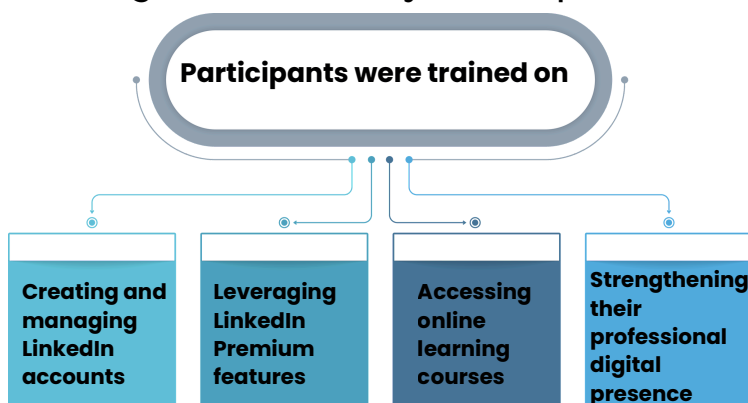

We have participated in the National Consultation on 'Enhancing participation of young women in the labour force' organized by YuWaah at UNICEF and feel happy to be aligned with the theme of "SakshamNaariKaSafar."

B-ABLE Foundation is implementing a pilot program with YuWaah at the Dhaulpur district, 5000 young women aged 18 to 29 age group are enrolled, out of which 2500 women are being skilled virtually on digital/financial literacy. 250 women will be linked to employment/self-employment opportunities in this initiative in the coming months.

New Initiative - Educating on LinkedIn Benefits

The B-ABLE Foundation, in partnership with Aspire For Her, implemented a dynamic LinkedIn training program designed to enhance employment opportunities and digital presence among young individuals in the IT-ITeS sector. This PAN India initiative successfully upskilled 1,141 youth, with a strong 70% female participation, highlighting its commitment to gender inclusivity and empowerment.

Small Greenhouse to Small Holders

B-ABLE Foundation with Kheyti has initiated the Smart Farmers Kheyti Greenhouse Promotions Program for building the capacity of farmers about greenhouses and transferring technology to farmers so that they know about the innovative agricultural practices. Protected horticulture can provide solutions to sustainability in agriculture and deliver economic benefits to farmers. The program was initiated in December 2023, and we have mobilized 600 farmers in Pratapgarh, district of Uttar Pradesh.

Kheyti is a Hyderabad-based company implementing a greenhouse promotion program throughout India. We have partnered for Pratapgarh in Uttar Pradesh.

The company has imported low-cost greenhouse technology for farmers. With the greenhouse program, we started with the farmers of Pratapgarh in Uttar Pradesh, and we got a good response wherein 1800 farmers were mobilized, and 23 of them set up their greenhouses for crop cultivation.

Our team also interacted with women of SHGs in this district as a part of knowledge transfer about crop cultivation in a greenhouse. Since Women are an integral part of agricultural practices, it is important to empower them as well and introduce them to this farming technology

Highlights

- Mobilized & educated 1800 farmers in Pratapgarh, Uttar Pradesh .
- Special subsidies for small holders by Kheyti

DTH Technician Training Program

India has a large and rapidly growing electronics market, driven by an increasing middle-class population, rising disposable incomes, and growing consumer demand for electronic products, presenting a substantial opportunity for a skilled workforce in the sector. DTH operators' training program is a CSR initiative of Tata Play with B-ABLE Foundation, to train unemployed marginalized youth as DTH operators and service technicians.

The trained candidates are placed as DTH set-top-box installers and service providers (technicians) in their localities, enabling them to earn a sustainable income and contribute to the electronic industry by providing a skilled workforce to meet the growing demand. There is a unique possibility that electricians and plumbers can learn these skills of DTH setup box and earn a sustainable livelihood for their families.

Transferring Knowledge about Entrepreneurship Development Through Online Skilling -4000 up-skilled

B-ABLE Foundation, in association with JUBILANT, provides a life-changing opportunity to the youth to choose entrepreneurship as their career.

For this, we impart necessary skills at Jubilant Virtual Academy under the Entrepreneurship Development Programme (EDP), NSDC-approved content, and provide them a certificate. This opens doors to explore market opportunities and make their mark in the dynamic business world.

The overall objectives of EDP are mainly to help in the rapid growth of the economy by supplying skilled entrepreneurs. This program primarily aims to provide self-employment to the young generation.

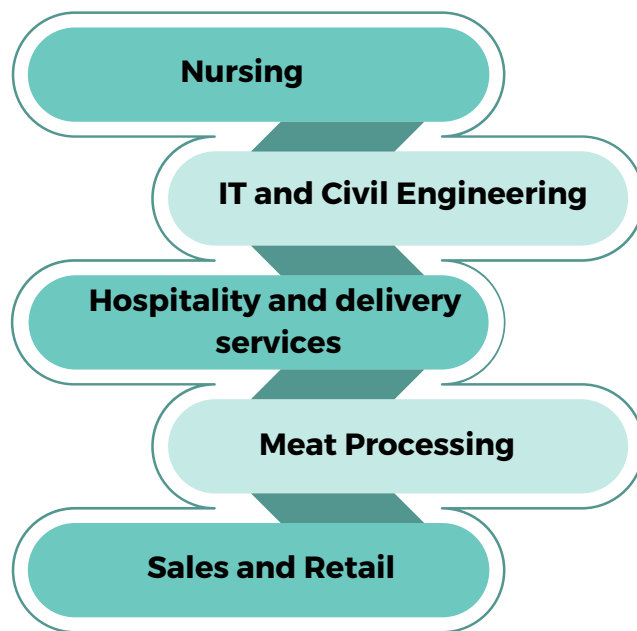

International Placements

B-ABLE Foundation facilitates aspiring youth from different parts of the country and provides training for international employment opportunities in Germany. This will improve their standard of living and promote self-development, at the same time, contribute to the formal economy of our country.

B-ABLE Foundation is engaged in helping the youth grab newer and better international opportunities in countries like Germany, Russia, Australia UK, the US, and Gulf countries so that they can realize their dreams and improve their standard of living. These places offer better career growth and personality development opportunities for youth to grow in their career and hone their personality. We help them connect with relevant employers as per their qualifications and skill set in fields like nursing, hospitality, construction, etc. Our experienced and skilled team gives them direction through counselling and training.

Our overseas Placement team participated in the Career Fest organized by BCM Group College & Institutions at Ludhiana. We introduced international internships and job opportunities to the candidates. There were some queries that were addressed on the spot. A total of 140 candidates participated

Sectors we cover

KEY STEPS FOR PLACEMENT

Success Stories Which Keep Us Motivated

Pushpendra Kumar - successful cattle feed entrepreneur

Pushpendra Kumar is one of the successful and hardworking cattle feed entrepreneurs of Khai Khera Khadar village in the Gajraula, Uttar Pradesh. Earlier, he had to leave his studies after intermediate, as his family's financial condition deteriorated during the COVID-19 pandemic. Thereafter, Pushpendra searched for jobs, but in vain. He then started working on his farm, yet due to small landholding, it was not sufficient to feed his large family, comprising four brothers. Pushpendra's life changed when he met our immobilizer, who told him about the Cattle Feed Entrepreneur Model in the Gajraula area. Pushpendra Kumar joined our team and worked as per protocol. Today, he owns a Kisan Samridhi Kendra that provides quality cattle feed to dairy farmers. He does a business of 2.5 to 3.0 lakh per month and supports farmers of his locality. He is only 24 years old and is a successful entrepreneur.

Vikas Rehwat - Getting trained as a drone pilot

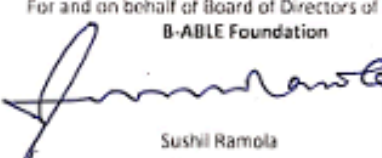

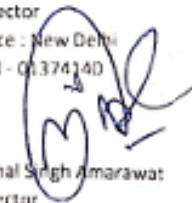

Vikas Kewat is from Barnagar, Ujjain district of Madhya Pradesh. He got the opportunity to undergo drone pilot training through B-ABLE Foundation. Apart from learning how to fly a drone, he learned a lot of other essential things like how to lead a team or how to simplify my work with the team. He highly recommends this training to anyone looking to gain skills in the drone industry for future career aspects. Right now, our team has 29 drone pilots, and they are working on agricultural sprays in Punjab, Haryana, Maharashtra, and UP. He would like to say a big Thank You to B-ABLE Foundation and General Aeronautics.

Devashish - Successful Phlebotomist

Devashish Chhabra resides in Jaipur, Rajasthan. His family was facing financial issues, and he was eager to help his father ease his worries. He came to know about the Phlebotomy Skill Building Program through a mobilization session conducted by B-ABLE Foundation, in which they were distributing pamphlets. He contacted the Foundation team, and they helped him enroll for the training program. He completed the training and got certified. Today, he is working at a reputable path lab and clinic in his city and earning a decent livelihood. He is proud that he can help his father run the house. His deepest thanks to B-ABLE Foundation and Lal PathLabs Foundation for giving his life a new direction.
